Article 45 Evidence (§§ 4501 — 4551)

§ 4532-b. [Admissibility of information from web mapping service, global satellite imaging site or internet mapping tool]

An image, map, location, distance, calculation, or other information taken from a web mapping service, a global satellite imaging site, or an internet mapping tool, is admissible in evidence if such image, map, location, distance, calculation, or other information indicates the date such material was created and subject to a challenge that the image, map, location, distance, calculation, or other information taken from a web mapping service, a global satellite imaging site, or an internet mapping tool does not fairly and accurately portray that which it is being offered to prove. A party intending to offer such image or information in evidence at a trial or hearing shall, at least thirty days before the trial or hearing, give notice of such intent, providing a copy or specifying the internet address at which such image or information may be inspected. No later than ten days before the trial or hearing, or later for good cause shown, a party upon whom such notice is served may object to the request to admit into evidence such image or information, stating the grounds for the objection. Unless objection is made pursuant to this subdivision, the court shall take judicial notice and admit into evidence such image, map, location, distance, calculation or other information.

History

L 2019, ch 223, § 2, effective December 28, 2018.
